RANDALL MCKILLOP
EVP AMERICA

BIOGRAPHY

Randall McKillop is the EVP of America at Toolbox Group - the creators of award-winning real estate community engagement and management technology Mallcomm.

With more than 20 years' expertise in leading technology organizations, as well as building and running large technology deployments that connect digital communities within a physical environment. Randall is a leading expert, innovator, and influencer in the proptech arena.

Previous to joining Toolbox Group Randall was the Senior Vice President of Technology, Products and Services at Westfield, Randall has a deep understanding of real estate and the importance of using digital communications tools to add value in real estate communities, as well as an extensive track record in delivering global digital solutions for user engagement and leadership in the delivering and scaling of software as a service.

As a career technologist, Randall has focused on the use innovative technology for business transformation, and the delivery of digital consumer experiences. Randall has a deep understanding of the customer journey and a unique approach to analyzing data in ways that ensure your customers are fully engaged whether that be B2B or B2C.
